Our Services

Trading, Supply & Logistics

Some of the products we trade include:

- Automotive Gas Oil
- Premium Motor Spirit
- Dual Purpose Kerosene
- Aviation Turbine Kerosene
- Fuel Oil
- Base Oil
- Lube Oil

We have expertise and enjoy robust performance in trading, supply and logistics for a wide range of petroleum products across the downstream, midstream and upstream sub-sectors of the oil and gas industry. BellPoint sources refined petroleum products independently through our global network and operate as a principal counterpart in the supply of products to customers.

We provide Onshore-Offshore supply of Marine Fuel Oil and Marine Gas Oil used as fuel for smaller/large vessels, auxiliary engines and generators at short notice even in the most remote locations. We maintain strict compliance with all state and federal laws relating to loading, transport and discharge of petroleum products.

BellPoint has a specialized arm that handles all retail business of the organization, ranging from ex depot sales, commercial and industrial sales to door to door delivery of petroleum products.

This way we ensure petroleum products are readily available to end users.

We also offer advanced fleet management and tracking solutions as well as car supplies to Nigerian owned Oil and gas companies, IOC's and other industry leading companies, Our fleet management system incorporates an advanced vehicle tracking system.

Shipping & Maritime Logistics

Some of the vessels we offer include:

- Supply Vessels (PSV, OSV)
- Anchor and Line Handlers (AHTS, AHT, LHT)
- Floating Storage and Offloading (FSO)
- Fast Crew Boats
- Built for Purpose Ballistic Security Boats
- Marine Tankers
- Accommodation Flotels
- Rigs

We offer a broad scope of Integrated offshore marine logistics vessel services ranging from Vessel Chartering to Vessel Management. Based on our strategic technical partnerships with local and international companies of high reputation.

Our marine logistics strategy is to consistently seek client satisfaction by providing reliable vessels, manned by passionate marine professionals that are quality and Safety driven. OFFSHORE MARINE SECURITY SERVICES Based on our framework and robust relationship with the Security and regulatory bodies, we provide well trained marine Crew and Security Escort Team (SET) to provide security coverage on purpose-built, ballistic protected, offshore security patrol vessels for our client marine assets.

Gas Supply & Logistics Support

- LPG
- CNG
- LNG

BellPoint Energies offer bespoke professional services in business advisory services, supply and logistics in gas supply.

BellPoint has strategic partnerships with industry leaders like NLNG to provide gas products (CNG and LPG).

We are championing LPG and CNG use as a cleaner fuel for cars, generators, cooking, transportation, and power generation.

Through reliable and reputable LPG and CNG haulage organizations in Nigeria which enables us to deliver Products Nationwide.

This enables us access to an enormous fleet size for easy distribution of LPG and CNG to buyers and end-users.

BellPoint dives the provision of Natural gas which is a safer fuel compared to most conventional liquid fuels in the areas of ignition, dispersion, and burning features so well with its low toxicity.

Our access to large storage facilities positions us to engage in large-scale trading and distribution of gas products in close proximity to our clients and provide goods in transit to them.

With tank farms equipped with the right infrastructures, and skilled manpower to manage the facility productively.

Our strategic partnership with trusted global players with successful operations in the African continent, we are committed to making a difference globally across the energy value chain.

Engineering, Procurement & Construction

**Engineering &
construction
services
provided for
clients**

Fleet of trucks across multiple markets

Our fleet of cargo trucks is a vital component of our services. We have a wide range of vehicles in our fleet, including both standard and specialized trucks, all of which are designed to meet the specific needs of our clients. Our standard trucks are equipped with state-of-the-art GPS and communication systems, allowing us to track and monitor our vehicles in real-time and ensure that they are always running smoothly.

In addition to our standard trucks, we also have a number of specialized vehicles in our fleet. These include heavy-duty tankers, which are used to transport large volumes of oil and other liquids, as well as flatbed trucks, which are used to transport heavy equipment and other oversized cargo. Our fleet also includes a number of smaller vehicles, such as pickup trucks and vans, which are used for local deliveries and other short-distance hauls.

Overall, our fleet of cargo trucks is one of the most reliable and efficient in the industry, and we are constantly updating and upgrading our vehicles to ensure that we are able to meet the ever-changing needs of our clients. We pride ourselves on providing safe, timely and efficient transport services to our valued customers.

Steel fabrication & manufacturing

We have a team of highly skilled and experienced professionals who have the expertise and capability to design, fabricate, and install a wide range of steel structures and components for the oil and gas industry with a state of the art fabrication yard, well equipped with modern equipment and strategically located for easy load out, for offshore projects.

Our services include the design and fabrication of oil storage tanks, process vessels, pressure vessels, sub structures and topsides and other critical components for oil and gas production, transportation, and storage. We use state-of-the-art technology and equipment to ensure that our products are of the highest quality and meet all industry standards.

We offer OCTG and line pipe services. Our range of services includes procurement, storage and handling, milling and coating of line pipes. Our strategic partnerships with global manufacturers of line pipes ensures we offer the best in quality and pricing.

We also offer a wide range of maintenance and repair services to keep your oil and gas equipment running smoothly and efficiently. Our team of experts can troubleshoot and repair any issues with your steel structures and components, ensuring that they are operating at optimal performance levels.

We pride ourselves on our commitment to safety, quality, and customer satisfaction. We work closely with our clients to understand their specific needs and deliver solutions that are tailored to their unique requirements. Whether you need a single component or a complete turnkey solution, our team is ready to provide the expertise and services you need to keep your oil and gas operations running smoothly.

Our Clients & Partners

Our clients & partners

We operate across key supply value chain

- Bellpoint Energies have successfully delivered refined petroleum products extensively to offshore platforms and bunkered vessels from the ports.
- We pride ourselves with outstanding and verifiable track records of trading and successful supplies of petroleum products to other industry leaders. Including IOC's like ExxonMobil, Total Nigeria Plc, Forte Oil and Oando.
- Our partnerships are guided by strict SLA's which assures efficient, product integrity and safety.
- We operate across the supply value chain of importation, distribution and storage.
- We have expertise and enjoy robust performance in trading, operations, supply, procurement and logistics across the downstream, midstream and upstream sub-sectors of the oil and gas industry.
- Multiple deliveries, with year-on-year increase over the past decade despite challenging circumstances in the global market space.

BellPoint Energies = Turnkey Solutions Provision

“

BellPoint Energies' service delivery to our esteemed clients is backed by some of the world's most reputable technical and financial institutions

”

This is why we have the ability and confidence to deliver at all levels.

The BellPoint Future

The BellPoint Future

Because BellPoint Energies is committed to growing energy in Africa, we are positioned with activity and interest in multiple energy fields that are not only the future of Africa's energy production, but the world at large.

Further still, BellPoint Energies is committed to pursuing the attainment of net zero global goals by responsibly carrying out its operations to gradually evolve and transition to renewable energy production in Africa.

Gas Storage

Gas Distribution

Green Energy Production

Renewable Energy Services

“

Because we understand where the world is headed, BellPoint Energies is preparing Africa for the future

”

From hydro chemical energy to sustainability and cleaner energy, BellPoint is prepared for the future.

Safety & Environmental Commitment

The BellPoint Commitments

Our commitment to health, safety and the environment

We recognize the hazards and risks involved in our daily operation and the adverse health consequences that may result from accidents and operations mishaps. Therefore, our company operations are guided by standard safety requirements which form a part of continuous personnel training.

We train employees to work with a mindset that accident is preventable; hence a zero incident goal is attainable.

At BellPoint, we equate the welfare of our workforce and environment to our bottom line. We consider the health, safety and environmental aspects of our operations as being equally important as other business goals. Our Management leads on our Health, Safety and Environment policy thrust through personal example and active involvement of all employees, to create a climate in which everyone has a concern for environmental protection and a strong sense of responsibility for the safety and health of his/her fellow employees.

In line with our corporate governance policies, the overall aim of operations is to prevent health hazards whilst achieving an ideal level of performance.

Our commitment to quality

In line with our strategic direction, the organizational policy is to consciously determine the stated or implied needs and expectations of interested parties relevant to our business and ensure that such requirements are met. We shall focus on continual improvement of our quality management system performance by taking applicable action to effectively address any identified shortfall while encouraging next practice innovations and ideas in all our dealings.

Our commitment to local content support

In support of the respective national local content development laws, we are committed to maximizing the use of national human resources, materials, equipment and services in our operations without compromising the company's values, quality, health, safety, and environmental standards. Reasonable measures shall be undertaken at all times to meet requisite national local content levels. As an energy company, we shall implement government policies without compromising our intent of achieving the best overall value for the projects in terms of price, quality, efficiency, delivery, and operating parameters. We will also strive to maintain the close rapport we have built with the regulatory and compliance content development and monitoring boards of the respective countries in which we operate.
